Financing application process

The member must access the form on the FC Barcelona website, in the Members/Online Procedures section.

They must identify themselves using their code number and personal number (PIN). Once identified, access the section "TRANSACTIONS / Payment management"

Information on the different lines to be paid will appear.

They must select the lines they want to include in the payment or financing operation, one line being the minimum. Once all the lines to be included have been selected, they must mark the "NEXT" option.

A summary screen of the lines included and the total amount will appear.

Members may choose between:

- "REQUEST FINANCING", provided that the total cost is within the minimum and maximum financing amount.
"PAYMENT BY CARD" Settle the payment immediately in a single transaction through the Club's web payment gateway.

If they choose the "REQUEST FINANCING" option, the financing form will come up.

The general information screen will appear.

Next, the details of the "payer" for the financing will appear.

- If the holder is of legal age, this will be the member's details.
 - The tax data and contact fields (email, mobile phone in format +34 6xxxxxxx or +34 7xxxxxxx) are NOT directly editable or modifiable. If the information is not correct or some is missing, it will have to be updated as indicated in the transaction guide.
 - The only editable fields will be the language of communication and the fiscal residence, the one that appears on the DNI or NIE, since it may differ from the address in the member's file.
- If the holder is a minor, the details will be those of the legal guardian, father or mother (only if this information is available).
 - The tax data and contact fields are NOT directly editable or modifiable. If the information is not correct or some is missing, it will have to be updated by contacting the Barcelona Fan Service Office. The option of a third party payer can also be chosen.
 - The only editable fields are the contact fields (email, mobile phone in format +34 6xxxxxxx or +34 7xxxxxxx), as these may not be up to date. For security reasons, email details are requested twice.

In the case of members who are minors, their legal guardian, father or mother must accept the financing conditions, as well as the transfer of data to FINDIRECT to manage the financing request.

The payer is informed that their data may be consulted in credit rating files through the statement "FINDIRECT reserves the right to consult your data in common credit rating files (EXPERIAN and ASNEF, among others)".

Once the request has been submitted, an email will be sent to confirm that the request has been correctly recorded.

In the event that the person paying the financing is not the member holding the Estadi Olímpic Lluís Companys Pass 2024/25 –or in the case of minors (parent or legal guardian) –, as registered in the member's file, when the 'The person requesting the financing payment is not the member holding option is ticked', a new screen will appear to include the payer's email address and the language in which they wish to receive communications. For communication security reasons, email details will be requested twice for confirmation.

The following communication will be sent:

- An email to the member who is the holder of the Pass indicating that their request is pending confirmation from the person indicated as the payer.
- An email to the person indicated as the payer for the financing, informing them that the member has indicated that they will cover payment for the financing. This email will include a link to an online form so that they can complete the application process.

The person indicated by the member as the payer may:

- Accept the financing request.
- Not accept the financing request.

Then, the screen thanking them for their response will appear.

If the person indicated as payer rejects the request:

- We will send an email to report we have correctly received the request NOT to accept the financing.
- We will send an email to the member informing them that the person designated as payer has NOT agreed to take over the financing.

If the person of legal age designated as payer DOES accept the financing request:

They will have to provide us with their personal data, among these, their DNI or NIE, and accept the FINDIRECT financing conditions as well as the personal data processing privacy policy to allow the transfer of data to FINDIRECT in order to carry out the financing.

Once the details have been confirmed, the payer will receive an email to confirm that the process has been carried out correctly and that they will be contacted shortly, by FINDIRECT, to continue with the financing process. We will also send a message to the member to confirm that the payer has made the request.

Whether the payment is made by the member or a third party, in the event that the financing company, FINDIRECT, does not approve the financing request, we will send an email to the member holding the Pass informing them that the financing request has NOT been approved by FINDIRECT.

In this case, the member who holds the Estadi Olímpic Lluís Companys Pass 2024/25 may choose to pay the amount by card via an online transaction on the website (card payment) or make a new financing request.

If in this period the payment has not been made to the FC Barcelona Supporter Services Office in one go through the web or the instalment payment option has been selected, FC Barcelona will make the charge in full of the amount, through direct debit, on July 17th.
